

CES STEM LAB

PARENT NEWSLETTER

August 2019

science • technology • engineering • math

WELCOME!

Hello Parents,

My name is Mrs. Smith and I am your child's STEM Lab teacher. STEM Lab is one of the Special Classes that students attend once a week for thirty-five minutes at Cahaba Elementary School. STEM stands for Science, Technology, Engineering, and Mathematics. In Trussville City Schools STEM Labs, we focus on Science, Technology, Engineering, and Mathematics concepts and skills that pertain to digital literacy and computer science.

You will be amazed at how quickly your child's technology knowledge and skills advance this year. By the end of the year, your child will be able to type more efficiently, write code for computer programs, operate a variety of digital devices, design all kinds of documents and presentations, and much, much more.

Be sure to check out our classroom Learning Platform at www.aprilsmith.org where you can see what your child is learning and access parent information and tutorials as well.

ANNOUNCEMENTS

CES P.A.L.S. Night

**Tuesday, September 17, 2019
5:30 PM - 7:00PM**

2 Sessions & 5 Classes Available

Come and learn about how your child learns reading and math, what technologies are used, and what special classes are offered at Cahaba Elementary School.

Remember all personal electronics including phones, smartwatches, and tablets must be kept in student backpacks. They may not be out at school in any class or at any time.
